

Tools needed

- Sharp crafting knife (x-acto)
- Tweezers if you have clumsy fingers

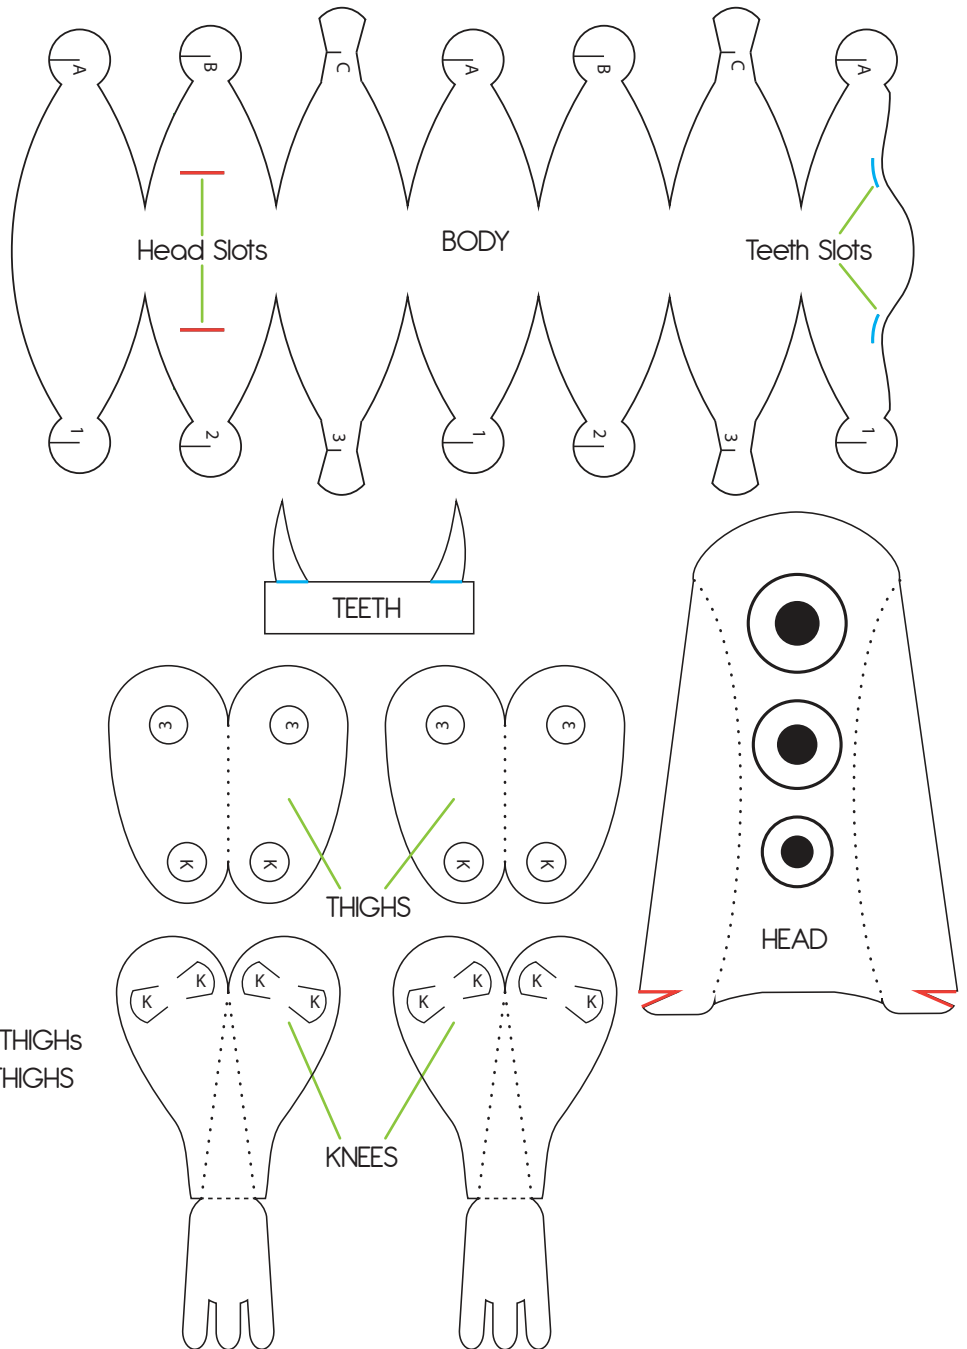

Note: You will need a VERY SHARP BLADE

Key

- Cut Lines ———
- Fold Toward You ·······
- Fold Away From You ·······
- Joint Tabs () ()

Steps

1. Make all interior cuts
2. Score along dotted lines
3. Cut out BODY & TEETH
 - Insert TEETH into corresponding slots, UNDERSIDE showing
 - Overlap TEETH Panel over END Panel
 - Interlock corresponding tabs on BODY
4. Cut out HEAD
 - Fold along dotted lines
 - Slide tabs on bottom of HEAD into slots on top of BODY
5. Cut out LEG Parts
 - Fold along dotted lines
 - Insert joint tabs on KNEES into holes on THIGHS
 - Insert joint tabs on BODY into holes of THIGHS

For Skeleton the same directions apply.
However, you do have the option of cutting along the orange lines — to create a more realistic skeleton.
